## Is a Roth IRA right for your client?

According to a 2008 U.S. government report, Social Security payments currently cover just $\mathbf{4 0 \%}$ of the income you'll need for retirement - and probably less in the future. You'll have to come up with the other $60 \%$, through either an employer - sponsored pension program, personal savings or both.

A Roth IRA gives you the ability to save for retirement by letting your investments grow tax-free. Here's how it works:

- Contribute at any age. Plus, if you are age 50 or older, you may be able to make additional contributions.
- There's no need to start taking minimum distributions after age $701 / 2$. This means that your money can continue to grow tax free until you need it.
- Distributions from Roth IRAs are tax free until you've withdrawn all of your contributions. Then, if applicable, you'll withdraw your conversion contributions. After that, all withdrawals come from earnings. These distributions are tax free if you are over age $591 / 2$ and have had your Roth IRA for 5 years.
- Funds passed to beneficiaries are free from income taxes.

The bottom line: Easy in, easy out. The Roth IRA makes it easy for you to keep your money in as well as take it out. And we can help.
In order to contribute to a Roth IRA for 2009, your motified adjusted gross income cannot exceed $\$ 176,000$ (married filing jointly), $\$ 120,000$ (single) or $\$ 10,000$ (married filing separately).
